...BUT WILL IT FIT?

So you're thinking of snagging yourself a comfy mattress from our loafingly lovely collection? Excellent. The next question you need to ask yourself is "Will it fit into my house?" Follow our handy guide and get measured up...

PS if you still have questions, give our Chatterboxes a bell on 0845 468 0698 and they should be able to help.

OK, let's do this...

1 MEASURING YOUR MATTRESS

First, scribble down the dimensions of your mattress in the boxes below (use FIG. 1 for help). You can find all mattress dimensions at loaf.com. You'll need to refer to these as you take various measurements around your home.

H: W: L:

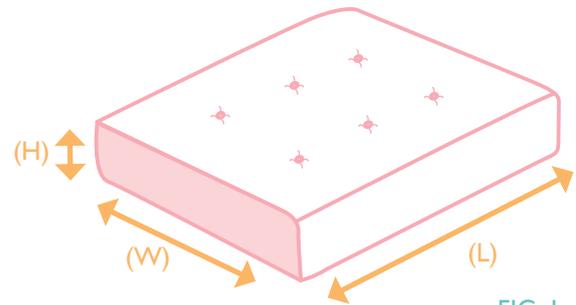

FIG. 1

2 MEASURING YOUR HOME

Using FIG. 2 as a guide, measure the height (A) between the ceiling and the stairs at the narrowest point. Record your measurement here:

A:

If (A) is wider than the width (W) of your mattress it will fit.

Next, check if your mattress can be maneuvered through your landing:

Measure the width (B), width (C) and height (D) of your landing. Record your measurement here:

B: C: D:

Is (B) equal or greater than the width (W) of your mattress?

Is (C) at least 1/2 the length (L) of your mattress?

Is (D) be equal to or more than length (L) of your mattress?

If the answer to all 3 questions is yes, then your mattress will fit.

If the answer is no then give our Chatterboxes a call on 0845 468 0698. They will be able to tell you about other solutions such as having the mattress zipped and linked. If all else fails remember that all our mattresses come with free 14 day returns (as long as you keep the protective wrapping on). Happy days!
